KEY BENEFITS FOR LGBT PEOPLE

- New protections that prohibit discrimination in health care and coverage against LGBT people
- Equal access to family coverage and financial help for married same-sex couples
- No denial of coverage because of preexisting conditions like HIV/AIDS, asthma, or cancer
- Guaranteed coverage for essential health services like prescription medications, mental health care, and regular check-ups
- Equal access to preventive screenings regardless of your sex assigned at birth, gender identity, or the gender on your insurance card

You should never face discrimination - if you've been treated unfairly, you have rights and can file a complaint.
